

Dear Sirs:

I have been favorably impressed with the Indiana Do-not Call law and am opposed to any form of weakening.

I am writing in opposition to Docket 02-278 DA 05-1346. I oppose the the Joint Petition and it should not be granted. If any action is taken, the FCC should complement the current Indiana statute to make it more restrictive for telemarketeers. I believe that all groups should be restricted from calling as it is an invasion of privacy and a quality-of-life issue.

I believe that if the FCC was to act that the best action would be to increase the restrictions on all telemarketer calls.

Thank you.

Allen Rodecap
